**AMENDMENT AFTER FINAL ACTION
PURSUANT TO 37 C.F.R. § 1.116**

Sir:

This Amendment is responsive to the final Official Action of April 18, 2002. The pending claims have been amended to recite that the first and second DC output voltages are for "external circuitry", to adopt the Examiner's suggestion and even more clearly delineate the patentable distinctions over the cited references. No new issues are raised, because this Amendment merely adopts the Examiner's suggestion. Moreover, this Amendment eliminates the need for an appeal for an application which the Examiner apparently concedes is patentably distinguished over the prior art. Accordingly, entry of this Amendment and allowance of the present application is respectfully requested. Alternatively, entry of this Amendment as narrowing the issues for further consideration is respectfully requested.

Pursuant to the rules for amendments under 37 C.F.R. §1.121, the claims have been amended herein using the rewritten claims format. The present amendment also includes a section entitled **"VERSION WITH MARKINGS TO SHOW CHANGES MADE"** attached hereto.

In the Claims:

Please enter amended Claims 10-11 and 13-15 as follows:

10. (Twice Amended) A multiple DC output voltage DC/DC converter comprising:
